Features

Quality

Compare GO's quality to any other manufacturer - from design and engineering to North American manufacturing and dedicated customer service, GO will stand out. And in side by side comparisons, GO products always deliver a noticeably better quality of light.

Natural Light

No flickering, no ballast noise, no EMI, UV or glare. Reduces eye strain, headaches and other workplace complaints associated with fluorescent lighting.

Dimmable

Can be dimmed with standard 0-10V, IR remote control or automated sensor control. Components replaceable/upgradeable. Designed for field replaceable PCBs, power and control systems as technology becomes even more efficient. Retain the fixture, upgrade the technology.

Low Heat Generation

Low heat generation, extra saving through reduction of HVAC load.

Environment Friendly

No mercury, RoHS compliant, no disposal concern, highly robust – no glass to break and shatter.

Long Life

Reduces relamping cycle 2 to 5 times fewer than fluorescent systems – ROI <3 years typical.

Solid Construction

Robust metal construction with polycarbonate lens, sealed to resist infiltration by dust or insects and specifically designed for extra-long life.

High Uniformity

+85% consistency of luminance across planar surface.

Intelligent Lighting

Compatible with building automation systems such as Lutron Eco, DALI, DMX, etc, depending on the model.
